In order to successfully accomplish this job purpose, the job holder must be a professional able to effectively demonstrate World Vision's values and ethos so as to serve as good example to others.

Major Responsibilities

Project, Planning and Implementation

- Contextualize and adopt the Grant technical guidelines /designs at the Grant Coverage Area.
- Ensure timely implementation of the Grant program activities within the Grant Coverage Area.
- Facilitate timely and quality implementation of Water, sanitation and Hygiene projects, other construction infrastructures and multiple use of water initiatives.
- Provide effective, innovative and WASH technical support to other programs ensuring effective integration for synergies, efficiencies and greater impact.
- Capacity Building of CBOs and Water Users Committees to be able to effectively manage WASH facilities in scenario where there is no regulated water service provider to take over.
- Capacity building of communities in programming and implementation of WASH and construction projects for sustainability.
- Conduct training for water Users Associations to empower them to run their own water supply systems in line with the approved rural water management models for improved governance and sustainability.
- Support preparation and conducting hygiene and sanitation promotion training sessions.
- Give guidance in environmental protection and conservation (water shed management and reforestation).
- Take lead in development and implementation of water safety plans and disaster risk management plans for the water supply projects.

- Ensure that WASH business processes, standards and guidelines related to WASH and Construction initiatives are effectively applied in project implementation.
- Carry out feasibility studies, water resource mapping, EIA support, Technical Design of WASH and Construction projects as need arises
- Support development of technically sound funding proposals through provision of information & data and review in collaboration with ADP Managers, other sector specialists. Preparation of the tender documents (Technical Specifications, Drawings, Bills of quantities and Terms of Reference).
- Facilitates Topographical Surveys and GIS activities
- Facilitate communities to identify viable WASH, Health and construction projects and negotiate for way leaves and easement and ensure their participation in the implementation of the same.

Quality Assurance-Monitoring, reporting and Documentation

- Supervise and Monitor WASG and Construction interventions in strict adherence to WV Kenya, Kenya government regulations, WHO and the SPHERE standards.
- Supervise and Monitor Sanitation and Hygiene interventions in strict adherence to WV Kenya, Kenya government regulations, WHO and the SPHERE standards.
- Development of Project Designs and Annual Operation Plans. (4D matrices, DIPs, Annual Budgets).
- Develop quality monthly, quarterly, semi-annual, annual and end of projects reports in accordance with donors and WV Kenya requirements.

- Document and disseminate success stories and best practices on Water, sanitation and Hygiene projects in the Grant coverage area.
- Ensure budgetary utilization is within acceptable limits/range.
- Facilitate regular WASH & Construction review meetings for the WASH team as well as participate in the Grant review meetings
- Ensures participatory monthly data collection are conducted (involving communities and partners) using the standardized tools
- Contextualization and utilization of reporting guidelines.

Advocacy, Engagement with strategic partners, Linkages and networks & partnership development.

- Representation of WV Kenya in key WASH and Construction stakeholder forums/meetings in the Grant coverage area.
- Facilitate community education on Laws, Policies and Standards on WASH & Construction Service delivery
- Provide support to community led processes of monitoring public service delivery.
- Ensure communities are mobilized and participate in their WASH and projects
- Partner and collaborate with county government and other development partners to ensure implementation of service models and leverage on construction of WASH projects.
