Overview

Council have an extensive range of properties, facilities and fleet vehicles that require cleaning services. These existing agreements provide cleaning services across QLDC offices, operational depots, sport & rec facilities, venues/halls and libraries. A vehicle fleet also receives cleaning services. The schedules for each building range from daily, weekly and one-off frequency, with deep cleans scheduled periodically and additional costs incurred for consumables such as toilet roll, paper towels and soap.

As part of the Asset & Facilities Realignment Project, the Property team understands the need for a cleaning services solution that continues to provide the required levels of service under our existing arrangements, but can be better holistically managed under one service provider and include those facilities further afield that are currently omitted from any professional cleaning service.
