Big Data Curriculum

**Description**

The European Medicines Agency (EMA) is seeking to sign multiple framework contracts in three different lots for developing a Big Data Curriculum to enhance the skills of the EU regulatory network. The Big Data curriculum is composed of the Data Science curriculum, Pharmacoevidence and Real-world evidence curriculum, Biostatistics and Clinical Trial Methodology curriculum and modules in the field of clinical trials. The contractors will develop trainings in these fields that will ensure the provision of first-rate trainings and enable regulators to apply the acquired knowledge in regulatory activities.
