Open

**Tender reference number** JRC/GEE/2022/MVP/1347-ExA

**Title** Site Emergency Services Telecom

*Please note that this is not a call for tenders but a publication announcing the Contracting authority's [intention to publish a future negotiated low or middle value procedure](#).*

**Description** This framework contract covers the emergency services radio communications network (ASTRID, pagers, walkie talkies). As this network is in place, so there is no initial investment. The emphasis of this contract is on maintenance and ageing management of the existing equipment. In order to remain compliant with legal security requirements, JRC-Geel will conclude a framework contract for the supply, installation and maintenance of its currently operated telecom systems. These systems comprise: • UHF walkie talkies • Swissphone ResQ pagers (including software) • ASTRID telephone posts • Kolibri location software • Satphone posts The contract will be concluded for an initial period of 12 months, which can be extended annually to a maximum duration of 48 months. The contract shall include supply, installation, corrective as well as preventive maintenance. A warranty period of at least 24 months after delivery and acceptance of the soft- and hardware is required by the signature of the Certificate of Conformity by the Contracting Authority.

**Contract type** Supplies

**Procedure type** Planned negotiated procedure for middle/low value contracts
