1 General point

1.1 Deviations from the General Implementing Rules

Point 4 “Specific contractual provisions” of these tender documents includes the administrative and contractual terms that apply to this public contract as a deviation of the ‘General Implementing Rules of public contracts’ (Royal Decree of 14 January 2013) or as a complement or an elaboration thereof.

These tender documents do derogate from Art. 25-33 of the General Implementing Rules (see point 4.8 “Performance bond (Art. 25-33)”). These deviations are founded on the idea of providing possible local tenderers with an opportunity to submit a tender.

The numbering of the articles below (in parenthesis) follows the numbering of the General Implementing Rules articles. Unless indicated, the relevant provisions of the General Implementing Rules shall apply in full.

These tender documents do derogate from Art. 25-33 of the General Implementing Rules (see point 4.8 "Performance bond (Art. 25-33)"). These deviations are founded on the idea of providing possible local tenderers with an opportunity to submit a tender.

4.1 Definitions (Art. 2)

- Contract manager: The official or any other person who manages and controls the performance of the contract;
- Performance bond: Financial guarantee given by the successful tenderer to cover its obligations until final and good performance of the contract;
- Acceptance: Observation by the contracting authority that the performance of all or part of the works, supplies or services is in compliance with good practice and with the terms and conditions of the contract;
- Progress payment: Payment of an instalment under the contract after service delivery is accepted;
- Advance: Payment of part of the contract before service delivery is accepted;
- Amendment: Agreement established between the contracting parties during contract performance in view of changing documents applicable to the contract.

4.2 Correspondence with the service provider (Art. 10)

Notifications by the contracting authority are addressed to the domicile or to the registered office mentioned in the tender. The contracting authority allows the use of electronic means for the purpose of notification. Whether electronic means are used or not, when communicating, sharing and storing information, data must be kept complete and confidential.

4.3 Contract manager (Art. 11)

The contract manager is Mr. Mark Hoekstra, Intervention Manager, mark.hoekstra@enabel.be

Once the contract is concluded, the contract manager is the main contact point for the service provider. Any correspondence or any questions with regards to the performance of the contract shall be addressed to him/her, unless explicitly mentioned otherwise in these tender documents (see namely, "Payment" below).

The contract manager is fully competent for the follow-up of the satisfactory performance of the contract, including issuing service orders, drawing up reports and states of affairs, approving the services and signing acceptance and failure report(s).

However, the signing of amendments or any other decision or agreement implying a deviation from the essential terms and conditions of the contract are not part of the competence of the contract manager. For such decisions the contracting authority is represented as stipulated under point 1.2 “Contracting authority”.

Under no circumstances is the contract manager allowed to modify the terms and conditions (e.g., performance deadline, etc.) of the contract, even if the financial impact is nil or negative. Any commitment, change or agreement that deviates from the conditions in the tender documents and that has not been notified by the contracting authority, shall be considered null and void.

4.4 Subcontractors (Art. 12-15)

The fact that the contractor entrusts all or part of his commitments to subcontractors does not release him of his responsibility towards the contracting authority. The latter does not recognize any contractual relation with these third parties.

The contractor remains, in any case, the only person liable towards the contracting authority. The contractor commits to having the contract performed by the persons indicated in the tender, except for force majeure. The persons mentioned or their replacements are all deemed to effectively be involved in the performance of the contract. Any replacements must be approved by the contracting authority.

When the contractor uses a subcontractor to carry out specific processing activities on behalf of the contracting authority, the same data protection obligations as those of the contractor are imposed on that subcontractor by contract or any other legal act.

In the same way, the contractor will respect and enforce to his subcontractors, the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation, GDPR). The contracting authority may conduct an audit of the processing carried out in order to validate compliance with this legislation.

4.5 Confidentiality (Art. 18)

The contractor and his employees are bound by a duty of reserve concerning the information which comes to their knowledge during performance of this contract. This information cannot under any circumstances be communicated to third parties without the written consent of the contracting authority. The contractor may, nevertheless, give this contract as a reference, provided that it indicates its status correctly (e.g. ‘in performance’) and that the contracting authority has not withdrawn this consent due to poor contract performance.

In accordance with Article 18 of the Royal Decree of 14 January 2013 establishing the general rules for public procurement, the tenderer undertakes to consider and process in a strictly confidential manner any information, all facts, any documents and/or any data, whatever their nature and support, which have been communicated to him, in any form and by any means, or to which he has access, directly or indirectly, in the context or on the occasion of this public contract. Confidential information covers, in particular, the very existence of this public contract, without this list being limited.

Therefore, he undertakes to:

- Respect and enforce the strict confidentiality of these elements and to take all necessary precautions in order to preserve their secrecy (these precautions cannot in

any case be inferior to those taken by the tenderer for the protection of his own confidential information);

- Consult, use and/or exploit, directly or indirectly, all of the above elements only to the extent strictly necessary to prepare and, if necessary, to carry out this public contract (particularly in accordance with the privacy legislation with respect to personal data processing);
- Not reproduce, distribute, disclose, transmit or otherwise make available to third parties the above elements, in whole or in part, and in any form, unless having obtained prior and written consent of the contracting authority;
- Return, at the first request of the contracting authority, the above elements;
- In general, not disclose directly or indirectly to third parties, whether for advertising or any other reason, the content of this public contract.

4.6 Protection of personal data

4.6.1 Processing of personal data by the contracting authority

The contracting authority undertakes to process the personal data that are communicated to it in response to the Call for Tenders with the greatest care, in accordance with legislation on the protection of personal data (General Data Protection Regulation, GDPR). Where the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data contains stricter provisions, the contracting authority will act in accordance with said law.

4.6.2 Processing of Personal Data by a Subcontractor

During contract performance, the contractor may process personal data of the contracting authority or in execution of a legal obligation.

For any processing of personal data carried out in connection with this public contract, the contractor is required to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (GDPR) and the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data.

By simply participating in the contracting process, the tenderer certifies that he will strictly comply with the obligations of the GDPR for any processing of personal data conducted in connection with that public contract.

Given the public contract, it is to be considered that the contracting authority and the contractor will each be responsible, individually, for the processing.

4.7 Intellectual property (Art. 19-23)

The contracting authority acquires the intellectual property rights created, developed or used during performance of the contract.

Without prejudice to paragraph 1 and unless otherwise stipulated in the contract documents, when the object of the contract consists of the creation, manufacture or the development of drawings and models or of logos, the contracting authority acquires the intellectual property thereof, as well as the right to trademark them, to have them registered and to have them protected.

For domain names created under the contract, the contracting authority also acquires the right to register and protect them, unless otherwise stipulated in the contract documents.

When the contracting authority does not acquire the intellectual property rights, it obtains a licence to exploit the results protected by the intellectual property rights for the exploitation modes that are mentioned in the contract documents.

4.8 Performance bond (Art. 25-33)

For this public contract, no performance bond is foreseen.

4.9 Conformity of performance (Art. 34)

The works, supplies and services must comply in all respects with the contract documents. Even in the absence of technical specifications in contract documents, the works, supplies and services must comply in all respects with good practice.

4.10 Changes to the procurement contract (Art. 37 to 38/19)

4.10.1 The value of the change is minimal (38/4)

The contracting authority has the right to change the initial tender unilaterally, if the following conditions are respected:

1° the scope of the contract remains unaltered;

2° the modification is limited to 10 % of the initial awarded amount.

The essential terms and conditions can only be modified with reasons, to be mentioned in an amendment.

4.10.2 Replacement of the contractor (Art. 38/3)

Provided that he meets the selection and exclusion criteria set out in this document, a new contractor may replace the contractor with whom the initial procurement contract was agreed in cases other than those provided for in Art. 38/3 of the General Implementing Rules (GIR).

The contractor submits his request as quickly as possible by registered post, stating the reasons for this replacement and providing a detailed inventory of the state of supplies and services already performed, the new contractor's contact details and the documents and certificates which the contracting authority cannot access free of charge.

The replacement will be recorded in an amendment dated and signed by all three parties. The initial contractor remains liable to the contracting authority for the performance of the remainder of the procurement contract.

4.10.3 Adjusting the prices (Art. 38/7)

For this procurement contract, price reviews are not permitted.

4.10.4 Indemnities following the suspensions ordered by the contracting authority during performance (Art. 38/12)

The contracting authority reserves the right to suspend the performance of the procurement contract for a given period, mainly when it considers that the procurement contract cannot be performed without inconvenience at that time.

The performance period is extended by the period of delay caused by this suspension, provided that the contractual performance period has not expired. If it has expired, the return of fines for late performance will be agreed.

When activities are suspended, based on this clause, the contractor is required to take all necessary precautions, at his expense, to protect the services already performed and the materials from potential damage caused by unfavourable weather conditions, theft or other malicious acts.

The contractor has a right to damages for suspensions ordered by the contracting authority when:

- The suspension lasts in total longer than one twentieth of the performance time and at least ten working days or two calendar weeks, depending on whether the performance time is expressed in working days or calendar days;
- The suspension is not due to unfavourable weather conditions;
- The suspension occurred during the contract performance period.

Within thirty days of their occurrence or the date on which the contractor or the contracting authority would normally have become aware of them, the contractor reports the facts or circumstances succinctly to the contracting authority and describes precisely their impact on the progress and cost of the procurement contract.

4.10.5 Unforeseen circumstances (Art. 38/9)

As a rule, the contractor is not entitled to any modification of the contractual terms due to circumstances of which the contracting authority was unaware.

A decision of the Belgian State to suspend cooperation with a partner country is deemed to be unforeseeable circumstances within the meaning of this article. Should the Belgian State break off or cease activities which implies therefore the financing of this procurement contract, Enabel will do everything reasonable to agree a maximum compensation figure.

4.11 Preliminary technical acceptance (Art. 41-42)

The contracting authority reserves the right to demand an activity report at any time of the mission to the service provider (meetings held, persons met, institutions visited, summary of results, problems encountered and problems solved, deviation from the planning and deviations from the ToR...).

4.12 Performance modalities (Art. 146 and seq.)

4.12.1 Implementation period (Art. 147)

The contract starts upon Award Notification and has a duration until the **31st of January 2023**. The kick off meeting is to be held as soon as possible after notification of Award Letter, and no later than **7 calendar days** after notification of the Award Letter.

4.12.2 Place where the services shall be performed (Art. 149)

The services shall be performed at the addresses mentioned in the terms of references.

4.12.3 Evaluation of the services performed

If during contract performance irregularities are found, the contractor shall be notified about this immediately by fax or e-mail, which shall be confirmed consequently. The contractor is bound to perform the non-complying services again.

When the services have been performed, the quality and conformity of the services shall be evaluated. A report of this evaluation shall be drawn up. The original copy of this report will be sent to the contractor. Any services that have not been performed correctly or in conformity shall be started again.

4.12.4 Liability of the service provider (Art. 152-153)

The service provider takes the full responsibility for mistakes and deficiencies in the services provided.

Moreover, the service provider shall guarantee the contracting authority against any claims for compensation for which he is liable towards third parties due to late performance of the services or due to failure of the service provider.

4.13 Zero tolerance sexual exploitation and abuse

In application of Enabel's Policy regarding sexual exploitation and abuse of June 2019 there will be zero tolerance towards any misconduct that could impact the professional credibility of the tenderer.

4.14 Means of action of the contracting authority (Art. 44-51 and 154-155)

Failure of the contractor is not only related to services themselves but also to the whole of his obligations.

In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the contract, it is strictly forbidden to the contractor to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of the contracting authority who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the contract, regardless of their hierarchical position.

In case of violation, the contracting authority can impose a set fine to the contractor for each violation, which can be up to three times the amount obtained by adding up the (estimated) values of the advantage offered to the employee and of the advantage that the successful tenderer hoped to obtain by offering the advantage to the employee. The contracting authority can decide independently about the application and the amount of this fine.

This term is without prejudice to the possible application of other measures as of right provided in the General Implementing Rules, namely the unilateral termination of the contract and /or the exclusion of contracts of the contracting authority for a determined duration.

4.14.1 Failure of performance (Art. 44)

The contractor is considered to be in failure of performance of the contract:

- When services are not performed in accordance with the conditions defined by the contract documents;
- At any time, when the performance is not conducted in such a way that it can be fully completed at the dates set;
- When the contractor does not follow written orders, which are given in due form by the contracting authority.

Any failure to comply with the provisions of the contract, including the non-observance of orders of the contracting authority, shall be recorded in a 'failure report', a copy of which shall be sent immediately to the successful tenderer by registered letter or equivalent.

The contractor shall repair the deficiencies without any delay. He can assert his right of defence by registered letter addressed to the contracting authority within fifteen calendar

days from the date of dispatch of the ‘failure report’. His silence is considered, after this period, as an acknowledgement of the facts recorded.

Any deficiencies found on his part render the contractor liable for one or more of the measures provided for in Art. 45 to 49 and 154 and 155.

4.14.2 Fines for delay (Art. 46-154)

Fines for delay are not related to penalties provided under Art. 45. They shall be due, without the need for notice, simply by the expiry of the implementation period without the issuing of a report, and they shall be automatically applied for the total number of days of delay.

Notwithstanding the application of fines for delay, the contractor shall continue to guarantee the contracting authority against any claims for compensation for which it may be liable to third parties due to the delay in performance of the contract.

4.14.3 Measures as of right (Art. 47-155)

§ 1 When upon the expiration of the deadline given in Art. 44, § 2 for asserting his right of defence the successful tenderer has remained inactive or has presented means that are considered unjustified by the contracting authority, the latter may apply the measures as of right described in paragraph 2.

However, the contracting authority may apply measures as of right without waiting for the expiration of the deadline given in Art. 44, § 2, when the successful tenderer has explicitly recognized the deficiencies found.

§ 2 The measures as of right are:

1° Unilateral termination of the contract. In this case the entire bond, or if no bond has been posted an equivalent amount, is acquired as of right by the contracting authority as lump sum damages. This measure excludes the application of any fine for delay in performance in respect of the terminated part of the contract;

2° Performance under own management of all or part of the non-performed contract;

3° Conclusion of one or more replacement contracts with one or more third parties for all or part of the contract remaining to be performed.

The measures referred to in 1°, 2° and 3° shall be taken at the expense and risk of the defaulting contractor. However, any fines or penalties imposed during the performance of a replacement contract shall be borne by the new successful tenderer.

4.15 General payment modalities (Art. 66-72 and 160)

The amount owed to the contractor must be paid within 30 calendar days with effect from the expiry of the verification period (see point 4.16.1 “Acceptance of the services performed”), and provided that the contracting authority possesses, at the same time, the duly established invoice.

The contractor shall send one copy of the invoice with a copy of the contract acceptance report to the following address:

4.16 End of the contract (Art. 64-65, 150 and 156-157)

A representative of the contracting authority shall closely follow up the contract during performance (see point 4.3 “Contract manager (Art. 11)”).

4.16.1 Acceptance of the services performed

The services shall be only accepted after fulfilling requirements and after technical acceptance(s).

Provisional / final acceptance(s) shall be provided upon completion of performance of the services as mentioned in the Terms of Reference (see also point 4.15 “General payment modalities (Art. 66-72 and 160)”).

Upon expiration of the thirty-day period following the date stipulated for completion of the entirety of the services, depending on the case, an acceptance report or a refusal of acceptance report shall be drawn up.

Where the services are completed before or after this date, it shall be the responsibility of the service provider to notify the contract manager by registered letter, and at the same time to ask for the acceptance procedure to be carried out. Within thirty calendar days after the date of receipt of the service provider’s request, an acceptance or a refusal of acceptance report shall be drawn up, depending on the case.

4.17 Litigation (Art. 73)

This contract and all legal consequence that might ensue fall fully within the scope of Belgian law. In case of litigation or divergence of opinion between the contracting authority and the contractor, the parties will consult each other to find a solution.

If agreement is lacking, the competent courts of Brussels shall have exclusive jurisdiction over any dispute arising from the performance of this contract. French or Dutch are the languages of proceedings.

The contracting authority shall in no case be held liable for any damage caused to persons or property as a direct or indirect consequence of the activities required for the performance of

5 Terms of reference

5.1 Background

The Belgian Development Agency (Enabel) is currently implementing the second phase of the Renewable Energy for Rural Development Programme (RERD2). A 10M€ envelope was recently added to the programme (introducing the Solar Powered Irrigation Systems component) to complement existing investments and capacity building activities focussing on renewable energy and productive water utilisation for irrigation purposes in the provinces of Manica and Zambezia. The overall objective of the RERD2 programme is to contribute to rural economic and social development through increased access and sustainable utilisation of renewable energy solutions. In this respect, RERD2 seeks to increase access to energy in rural areas through public and private investments in renewable energy systems and support mechanisms to ensure sustainability.

The Solar Powered Irrigation Systems (SPIS) component will support three categories of beneficiaries (small, medium scale farmers and big scale entrepreneurial farmers). RERD2 anticipates that some of these farmers will be organised in out grower schemes through initiatives driven by public and private actors. Enabel champions the programme delivery working in close collaboration with the National Energy Fund (FUNAE) and the National Irrigation Institute (INIR). The programme is scheduled to end in 2025.

5.2 Purpose and Statement of Work

RERD2+ seeks to work closely with Education and Research institutions in the country to support SPIS awareness creation, demand activation and skills capacity strengthening of stakeholders working in the sector.

The Capacity Building Consultant is required to support implementation of activities under RERD2+ Result 7 of the program logframe. Working closely with the Rural Development Expert, the Consultant is required to support the development of strategies and implementation of activities required to protect achievement of performance targets defined for RERD2+ Output 7. The Consultant is required to execute specific activities indicated in Table 1 below.

5.3 Assignment Delivery Approach

The Consultant is required to apply an inclusive development approach in the execution of assignment activities emphasizing the active participation of public and private stakeholders in the SPIS sector. It is critical for the Consultant to ensure that capacity development curriculum is demand driven responding to tangible skills gaps identified amongst SPIS public and private stakeholders. Through application of a value chain lens, the Consultant is required to segment the varying awareness and skills needs of different value chain actors in relation to their function and to adapt capacity building curriculum content to actor specific skills needs. Enabel takes note that the RERD2+ programme cannot address all the skills gaps within the SPIS sector. As such, the Consultant is expected to place priority on key skills bottlenecks which limit the efficient functioning and sustainability of the SPIS value chain.

The education institutions that RERD2+ will partner with should be allowed space to design innovative training modules which generate win – win gains for all value chain actors involved in the SPIS sector. As such, the Consultant is expected to promote training curriculum that empowers value chain actors to be positioned for equitable distribution of

benefits arising from the SPIS sector embedding cross cutting themes such as women empowerment, digitalisation, youth inclusion and protection of the environment.

The curriculum development and skills training should be designed to generate adequate financial and social incentives to beneficiaries to strengthen value proposition and actor willingness to pay for the service long term. Education institutions that offer such commercial models should be prioritised to ensure that the supported actions do not become dependent on Enabel support with limited capacity for continued implementation beyond the life of the RERD2+ program. The Consultant should promote actions which encourage peer learning amongst the education institutions to allow for replication and the organic growth of programme supported capacity building initiatives. Exchange visits and similar initiatives which encourage peer learning should therefore be encouraged under this assignment.

6.3 Integrity statement for the tenderers

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare the following:

- Neither members of administration or employees, or any person or legal person with whom the tenderer has concluded an agreement in view of performing the public contract, may obtain or accept from a third party, for themselves or for any other person or legal person, an advantage appreciable in cash (for instance, gifts, bonuses or any other kind of benefits), directly or indirectly related to the activities of the person concerned for the account of Enabel.
- The board members, staff members or their partners have no financial or other interests in the businesses, organisations, etc. that have a direct or indirect link with Enabel (which could, for instance, bring about a conflict of interests).
- I have / we have read and understood the articles about deontology and anti-corruption included in the Tender Documents (see 1.7.), as well as *Enabel's Policy regarding sexual exploitation and abuse* of June 2019 and *Enabel's Policy regarding fraud and corruption risk management* of June 2019 and I / we declare fully endorsing and respecting these articles.

If above-mentioned public contract is awarded to the tenderer, I/we declare, moreover, agreeing with the following provisions:

- In order to avoid any impression of risk of partiality or connivance in the follow-up and control of the performance of the public contract, it is strictly forbidden to the public contractor (i.e. members of the administration and workers) to offer, directly or indirectly, gifts, meals or any other material or immaterial advantage, of whatever value, to the employees of Enabel who are concerned, directly or indirectly, by the follow-up and/or control of the performance of the public contract, regardless of their hierarchical rank.
- Any (public) contract will be terminated, once it appears that contract awarding or contract performance would have involved the obtaining or the offering of the above-mentioned advantages appreciable in cash.
- Any failure to comply with one or more of the deontological clauses will be considered as a serious professional misconduct which will lead to the exclusion of the contractor from this and other public contracts for Enabel.
- The public contractor commits to supply, upon the demand of the contracting authority, any supporting documents related to the performance conditions of the contract. The contracting authority will be allowed to proceed to any control, on paperwork or on site, which it considers necessary to collect evidence to support the presumption of unusual commercial expenditure.

Finally, the tenderer takes cognisance of the fact that Enabel reserves the right to lodge a complaint with the competent legal instances for all facts going against this statement and that all administrative and other costs resulting are borne by the tenderer.

6.4 Declaration on honour – exclusion criteria

Hereby, I / we, acting as legal representative(s) of above-mentioned tenderer, declare that the tenderer does not find himself in one of the following situations:

- 1) The tenderer or one of its 'directors [1]' was found guilty following a conviction by final judgement for one of the following offences:
 - 1° involvement in a criminal organisation
 - 2° corruption
 - 3° fraud
 - 4° terrorist offences, offences linked related to terrorist activities or incitement to commit such offence, collusion or attempt to commit such an offence
 - 5° money laundering or terrorist financing
 - 6° child labour and other trafficking in human beings
 - 7° employment of foreign citizens under illegal status
 - 8° creating a shell company.
- 2) The counterparty which fails to fulfil his obligations relating to the payment of taxes or social security contributions for an amount in excess of EUR 3 000, except if the counterparty can demonstrate that a contracting authority owes him one or more unquestionable and due debts which are free of all foreseeable liabilities. These debts are at least of an amount equal to the one for which he is late in paying outstanding tax or social charges.
- 3) The counterparty who is in a state of bankruptcy, liquidation, cessation of activities, judicial reorganisation or has admitted bankruptcy or is the subject of a liquidation procedure or judicial reorganisation, or in any similar situation resulting from a procedure of the same kind existing under other national regulations;
- 4) When Enabel can demonstrate by any appropriate means that the counterparty or any of its directors has committed serious professional misconduct which calls into question his integrity.

Are also considered such serious professional misconduct:

- a. A breach of Enabel's Policy regarding sexual exploitation and abuse – June 2019
- b. A breach of Enabel's Policy regarding fraud and corruption risk management – June 2019
- c. A breach of a regulatory provision in applicable local legislation regarding sexual harassment in the workplace
- d. The counterparty was seriously guilty of misrepresentation or false documents when providing the information required for verification of the absence of grounds for exclusion or the satisfaction of the selection criteria, or concealed this information
- e. Where Enabel has sufficient plausible evidence to conclude that the counterparty has committed acts, entered into agreements or entered into arrangements to distort competition

The presence of this counterparty on one of Enabel's exclusion lists as a result of such an act/agreement/arrangement is considered to be sufficiently plausible an element.

- 5) When a conflict of interest cannot be remedied by other, less intrusive measures;
- 6) When significant or persistent failures by the counterparty were detected during the execution of an essential obligation incumbent on him in the framework of a previous contract, a previous contract placed with another contracting authority, when these failures have given rise to measures as of right, damages or another comparable sanction.

Also, failures to respect applicable obligations regarding environmental, social and labour rights, national law, labour agreements or international provisions on environmental, social and labour rights are considered 'significant'.

The presence of the counterparty on the exclusion list of Enabel because of such a failure serves as evidence.

- 7) Restrictive measures have been taken vis-à-vis the counterparty with a view of ending violations of international peace and security such as terrorism, human-rights violations, the destabilisation of sovereign states and de proliferation of weapons of mass destruction.

The counterparty or one of its directors are on the lists of persons, groups or entities submitted by the United Nations, the European Union and Belgium for financial sanctions:
