Tender Details

TfNSW is seeking to engage a suitable contractor to undertake the completion of maintenance dredging of navigation channels at the Bermagui River and Bermagui Boat Harbour in NSW.

The objective of the proposed dredging is to ensure the provision and maintenance of safe navigation for commercial and recreational vessels travelling through the Bermagui Entrance Channel into the Bermagui River and Boat Harbour. It will also provide safe navigation for recreational vessels to the boat ramp located off Lamont Street to the West of Wallaga Lake Road.

Location

NSW Regions: Illawarra, Southern Highlands

RFT Type

Request for Proposals - An invitation for expressions of interest / seeking preliminary proposals. In many cases these may be used as a basis for shortlisting tenderers, along with other criteria such as expertise and experience. Prospective tenderers are initially evaluated for their proposal against the relevant selection criteria. A number of those who best meet the criteria are invited to tender. For complex or some other types of procurement, where the product or service outcomes are highly dependent on the content of the proposals received from Tenderers, the outcome may be negotiated.
