Tender Details

The Geological Survey of NSW is issuing this Request for Tender to procure bypass ESP systems for exploration activities in Stage 2 of its NSW CO2 Storage Assessment Program. Suppliers are required to submit a Quote for the supply of Bypass ESP Systems for the Principal's three wells to be drilled. Suppliers must meet the detailed specifications and required well design. Please note that each well requires one Downhole ByPass ESP System for the planned selective completion, meaning a total of 3 systems are required.

Location

NSW Regions: Central West

RFT Type

Open Tenders - An invitation to tender by public advertisement with no restriction placed on who may tender. Tenderers will normally be required to demonstrate in their tender that they have the necessary skills, resources, experience, financial capacity, and in some cases licences, accreditations, etc., to fulfil the tender requirements.

Address for Lodgement

Lodgement of tender responses must be completed electronically via the BuyNSW online eTenders procurement portal prior to the tender closing date/time.
