Tender Details

The Commercial Services Team within Infrastructure and Place of TfNSW is responsible for strategic advice, support, and best practice management in the development, procurement, and commercial management of infrastructure delivery, precincts, and commercial development of projects.

With an increasing number of Transport Infrastructure development projects being progressed, the number of areas the Commercial Services Team is supporting has expended. The current resources are not adequate to meet the increased workload.

To cover the expanded area of operation, TfNSW seeks to engage experienced and appropriately qualified Professional Service Provider(s) to fill a number of currently vacant positions for the provision of Commercial Resources within the Commercial Services Team.
