## Tender Details

The Rail Timetable Solution (RTS) Program will implement a state-of-the art timetable system and optimise related production processes, to deliver significant improvements in rail timetable production capabilities across the TfNSW Cluster for:

- TfNSW Standard Working Timetable (SWTT)
- Sydney Trains Standard Operating Timetable (SOT)
- Sydney Trains Daily Working Timetable (DWTT); and
- Nodal geography information

This will deliver, among other things, quality, safe and reliable timetables that support ongoing capacity uplifts whilst meeting new digital control systems requirements.

As a key part of the program, TfNSW seeks a rail timetable solution to meet the objectives.

## Location

Refer to Additional Details / Instructions

## **RFT Type**

Open Tenders - An invitation to tender by public advertisement with no restriction placed on who may tender. Tenderers will normally be required to demonstrate in their tender that they have the necessary skills, resources, experience, financial capacity, and in some cases licences, accreditations, etc., to fulfil the tender requirements.

## **Multi Agency Access**
