Tender Details

The Geological Survey of NSW is issuing this Request for Tender to procure directional drilling, measurement while drilling and logging while drilling services for exploration activities in Stage 2 of the NSW CO2 Storage Assessment Program. Suppliers are invited to submit a tender for the provision of all equipment, materials and personnel for the provision of these services to support the drilling of three exploration wells in August 2022. This service includes the provision and operation of motors and instruments that are attached at or near the drill bit to help efficiently drill the well

Location

NSW Regions: Central West

RFT Type

Open Tenders - An invitation to tender by public advertisement with no restriction placed on who may tender. Tenderers will normally be required to demonstrate in their tender that they have the necessary skills, resources, experience, financial capacity, and in some cases licences, accreditations, etc., to fulfil the tender requirements.

Address for Lodgement

Online via the eTenders Procurement Portal only.

Tenderers are advised to lodge their tender responses well in advance of the tender closing time due to tender gateway traffic.

Multi Agency Access

No
