## Tender Details

Heavy rains in March 2021 caused a major structural failure rendering a 300 metre section of road unsafe. Ongoing wet weather throughout 2021 and 2022 has seen Barrington Tops Forest Road remain closed, preventing all uses. A detailed engineering design has been completed by Geotrack Engineering Services. The works consist of bulk earth removal, installation of engineered geotextiles, benching works, pipe installation, sub-base and base course placement as per the Engineer's design in order to restore access.

The Tender calls for experienced earthmoving contractors to be the principal contractor detailing their capabilities and rates. Forestry Corporation aided by Geotrack Engineering Services will oversee the works and provide materials (pipes, gravel, geofabrics etc.)

## Location

**NSW Regions:** Mid North Coast

## RFT Type

Open Tenders - An invitation to tender by public advertisement with no restriction placed on who may tender. Tenderers will normally be required to demonstrate in their tender that they have the necessary skills, resources, experience, financial capacity, and in some cases licences, accreditations, etc., to fulfil the tender requirements.

## **Address for Lodgement**

All submissions must be submitted via the NSW Government Etender Website [www.tenders.nsw.gov.au](http://www.tenders.nsw.gov.au)

## **Multi Agency Access**
