Tender Details

The purpose of the proposed remediation works is to reduce the off-site risk of airborne dust and contaminated runoff generated from the continued oxidation of sulfidic mineral waste at Lake George Mine.

The proposed remediation works are required to prevent serious environmental and human health risks to people accessing the site, to residents on-site and in the town of Captains Flat.

This strategy centres around provision of project site infrastructure necessary to assist in the rehabilitation of the Lake George Legacy Mine Site.

The operational phase of the project is expected to run for approximately eighteen (18) months, weather permitting.

The community will benefit via the provision of a cleaner environment & insurance companies will benefit via mitigated risk.

Supply, installation, maintenance & decommissioning of site infrastructure details list on Request for Quote document:

- Site Infrastructure – Building Hire
- Site Infrastructure – Storage Hire
- Site Infrastructure – Compound Security

Location

NSW Regions: Far North Coast, Mid North Coast, New England, Central Coast, Hunter, Cumberland/Prospect, Nepean, Northern Sydney, Inner West, South East Sydney, South West Sydney, Central West, Orana/Far West, Riverina/Murray, Illawarra, Southern Highlands

RFT Type

Open Tenders - An invitation to tender by public advertisement with no restriction placed on who may tender. Tenderers will normally be required to demonstrate in their tender that they have the necessary skills, resources, experience, financial capacity, and in some cases licences, accreditations, etc., to fulfil the tender requirements.
