Tender Details

Tuppal Creek is a 60-kilometre long ephemeral creek in southern NSW that historically was an anabranch of the Murray and Edward Rivers. The creek flows in a north-westerly direction, departing from the Murray River approximately 5 kilometres west of Tocumwal and joining the Edward River 10 kilometres east of Deniliquin.

The project requires construction of the following structures:

- 7 low level farm machinery bridges
- 14 fence crossings

Location

NSW Regions: Riverina/Murray

RFT Type

Open Tenders - An invitation to tender by public advertisement with no restriction placed on who may tender. Tenderers will normally be required to demonstrate in their tender that they have the necessary skills, resources, experience, financial capacity, and in some cases licences, accreditations, etc., to fulfil the tender requirements.
