Overview

Kenakena School has 5YA projects that have been bundled together that consist of classroom and toilet refurbishment, cladding replacement and window renewal.

The project will be staged with the separate components actioned in a phased programme of work planned in conjunction with the school's release of spaces.

Some areas of work have restricted access and are in close proximity to teaching spaces that will be in use. Consultation between the school and contractor will be required to determine a mutually acceptable site access plan.

The scheme will be traditionally executed with a full design team employed by the Kenakena School Board of Trustees producing full construction documentation.

NOTE: Asbestos Survey will be loaded via NTT

NOTE: 2 Separate Price Schedules required.
