## Overview

The National Screening Unit (NSU) has taken a combined approach to procurement for laboratory services, including the National Bowel Screening Programme (NBSP), the National Cervical Screening Programme (NCSP) and the Antenatal and Newborn Screening (ANS) Programme. The first element of this procurement approach includes the direct appointment of Auckland District Health Board (ADHB) for the provision of NBSP, ANS and a proportion of NCSP laboratory services, which is an excluded component of this RFP. This RFP is an invitation to suitably qualified Respondents to submit a Proposal for laboratory testing services for the NCSP. This RFP is an open competitive tender process. It is a single step procurement process. This RFP will result in contracts between the Ministry and up to two laboratories (not including ADHB) for a proportion of NCSP screening services. The proportion of samples will range between 33% and 66%, depending on whether one or two providers (excluding ADHB) are engaged. Contracts with successful providers resulting from this RFP will be for an initial term of four (4) years with one option at the discretion of the Ministry of renewal of up to three (3) years and one further option at the discretion of the Ministry of renewal for a further term of up to two (2) years if the first option is exercised.
