## Overview

Fire and Emergency National Headquarters will be permanently relocating from 80 The Terrace to Spark Central - 42/52 Willis St, Wellington 6011 in Q3 2022. Fire and Emergency NZ requires experienced fit out services to make interior amendments to the new site over June-July.

Fire and Emergency is required to seek a competitive tender basis for these works. Due to the short timeframe, we will be using a preliminary and general (P&G) and margin methodology to select an interior fit out company.

It is expected that the awarded contractor will have experience in managing similar sized projects and the ability to deal with the complexities of the site.

Spark Central is specifically complex due to the construction including, suspended ceilings exposed HVAC systems. It is a requirement that the supplier has knowledge of both buildings accessibility and services to support in managing the project.

Please view the documents for the floor plans, requirements and contract.
