Overview

REANNZ is undertaking a strategic review of its national network capability which will involve going to market several times in 2022 for

1. National Network Connectivity

Inter-regional point to point connectivity between established REANNZ points of presence and REANNZ hardware.

2. Core Network Packet Hardware

Future hardware platform to replace current aging infrastructure.

3. Network Reach partner(s)

Network infrastructure partners to provide 1-10Gbps network services to emerging or smaller research sites that are not located within effective reach of REANNZ points of presence.

This RFP includes 1. National Network Connectivity
