## Overview

Auckland Council requests proposals for the provision of Transfer Station Operations, Waste Processing & Haulage Services for Aotea / Great Barrier Island (Aotea) from 1 July 2022 to 30 June 2027.

The aim of Auckland Council in this process is to obtain sufficiently detailed information from potential suppliers regarding their respective organisation's ability to provide the services (having regard to several factors including the quality of the services, the supplier's ability to deliver on a timely basis, and price). This will enable Auckland Council to select and appoint a party (or parties) to provide the services.
