## Overview

Dunedin has been selected as a host city for the July 2023 FIFA Women's World Cup.

We require proposals to provide world-class sportsfield lighting to four of our community sporting Hubs.

Potential respondents should note that the DCC intends to offer syndication opportunities on this contract to allow the participation of other local government organisations to participate in this contract.

The DCC welcomes opportunities for design innovation, re-location or mobility options.

There are a number of key elements to this project, including quality, warranty and controls. The most important considerations :

- Compliance with FIFA design and performance requirements.
- Guaranteed ability to design and install by the final install date.
- To protect the integrity of the existing sportsfields and user requirements.
- Appropriately shielding to protect unnecessary glare.
