### Overview

Greater Wellington Regional Council (GWRC) gives notice of its intention to issue an Invitation to Qualify (ITQ) to appoint a panel of authorised helicopter operators with the suitable CAA certification who can work with us to provide aerial services.

The provisions include, ungulate control, surveying, ferrying staff and equipment, spraying, sling load and agricultural activities, and spreading 1080 pellets etc., across the greater Wellington region.

The CAA Certification required are as follows:

- Air Operator Certificate with specification for the carriage of passengers (Part 135).
- CAA Agricultural Aircraft Operator Certificate (Part 137).
- Helicopter External Load Operations (Part 133)

The objective is to engage, longer term pre-approved operators with agreed terms and conditions for GWRC to purchase off the panel when services are required without the requirement, to openly tender for each separate service either via direct appointment or secondary procurement, provided the pre-defined criteria are met.

The Contract is for an initial three-year term, with two rights of renewals of one year each. (3+1+1). The contract start date is expected to be 1 July 2022 or sooner.

The ITQ is due to be released around the 2nd/3rd week of April 2022.

Please do not reply to this notice, but if you have questions before the ITQ is issued, please contact GWRC via [umma.wilson@gw.govt.nz](mailto:umma.wilson@gw.govt.nz)
