## Overview

This tender will be for procurement of electricity for a two-year term from the end of the current contract in October 2022; KiwiRail has sole right of renewal for two further terms 3 years plus 5 years.

KiwiRail's electricity supply is in two key areas:

- Traction (power supply for electric locos and electric motorised units- EMUs) directly from the national grid to substations for Auckland metro 31.8 GWh, Central North Island (NIMTE) 6.7 GWh and Wellington metro (WEA) 23 GWh; billed via the contracted supplier.
- KiwiRail facilities 18.9GWh TOU (time of use) and 8.9GWh non TOU

Power consumption figures are indicative only, based on current usage and will vary when new electric locomotives and new ferries are delivered.
