Overview

Waipa District Council and Otorohanga District Council (the Councils) invite tenders for their Watermain Renewal Contract.

This Tender is for watermain renewal works over a 2 year Contract Works Period. This contract includes renewal and upgrade of watermains in Cambridge, Leamington, Te Awamutu, Kihikihi, K  whia,   torohanga and surrounding rural areas.

This is an opportunity to be part of a joint Council watermain renewals programme for the next two years. The intention is that this joint delivery of renewal works through a single contract will benefit all parties, achieve value for money, secure resources and materials over the contract term, and meet the WDC and ODC communities' needs for renewal of their ageing watermain infrastructure.

Although this work will be for two Councils, contract management will be through a single Engineer's Rep and Engineer to Contract.

The Councils see this as an opportunity for a contractor to invest in local employment and resources to deliver a large value programme of work and to utilise Waip   and   torohanga suppliers to support delivery.
