Overview

The Dunedin City Council (DCC) owns the Mosgiel Coronation Hall. The hall was built in 1912 and provides meeting spaces for community groups along with a 356 seat Theatre for larger events and shows. The Mosgiel Coronation Hall Development Trust Board (the Hall Committee) manages the facility use on behalf of the DCC and is an important stakeholder. Council staff and the Hall Committee have identified the need to replace the original theatre seating due to the deteriorating condition of the 60-year-old seats.

This is a seat supply and install project. We are seeking a solution that provides for the maximum amount of seating that can be accommodated, while meeting the current legislative and compliance requirements for the theatre space including aisle access and egress. We want seats that are functional and comfortable for users of the Theatre while being damage proof and hard wearing. The seating must be installed in February 2023 when the facility has less use than normal.
