Overview

This is a Physical Works contract to upgrade the roundabout controlled intersection to a signalised intersection.

The Contract Works comprise altering the existing intersection to operate as a signalised intersection. The new intersection will have pedestrian crossings and a raised platform. Most of the work affecting the live lanes will need to be carried out as night work because of the high traffic volumes and the tenderer must show relevant experience in night work in similar circumstances to be considered further in the evaluation process.

The scope of work includes site clearance, pavement removal and new pavement construction, footpath and new fence construction, traffic signals supply, installation and commissioning, temporary traffic management and lighting.

Only tenderers pre-qualified to Construction – Level 4B and Surfacing – Level 2B under the terms of the Highways and Network Operations (HNO) Prequalification System will be eligible to submit a tender.

Electronic copies of the RFT documentation are attached to this advertisement.

All tender queries should be directed to:

Gray Matter
PO Box 14178,
Hamilton 3252

For the Attention of: Hannah Woods email: Hannah.Woods@graymatter.co.nz

All responses to tender queries/clarifications will be answered by Notice to Tenderer which will be available in the GETS addenda.

Tender submissions shall be uploaded to GETS eTender box in two separate files.

The GETS file upload limit is 50MB. The files should be labelled:

- File No 1 – NZTA 5247 - Proposal excluding Price
- File No 2 – NZTA 5247 – Price (pdf format PLUS excel spreadsheet Schedule of Prices)

Tender submissions will only be accepted electronically via the GETS eTender Box.

Tenderers should refer to the GETS website for instructions on uploading their tender submission files
