Overview

Paraparaumu School has 5YA projects that have been bundled together that consist of classroom and toilet refurbishment, cladding replacement, roofing and window renewal.

The project will be staged with the separate components actioned in a phased programme of work planned in conjunction with the school's release of spaces.

Some areas of work have restricted access and are in close proximity to teaching spaces that will be in use. Consultation between the school and contractor will be required to determine a mutually acceptable site access plan.

This procurement looks for a professional building contractor that can employ appropriately experienced staff, competent sub contractors and proven suppliers to deliver a highly performing and robust refurbishment project.

The scheme will be traditionally executed with a full design team employed by the School Board of Trustees producing full construction documentation.

PLEASE NOTE: 2 Separate Price Schedules required.
