

## Details

RFx ID : 25606805  
Tender Name : Dargaville High School Shade Canopy\_Design-Build  
Reference # :  
Open Date : Wednesday, 30 March 2022 9:00 AM (Pacific/Auckland UTC+13:00)  
Close Date : Friday, 29 April 2022 5:00 PM (Pacific/Auckland UTC+12:00)  
Department/Business Unit : Board of Trustees - Approve by BoT - ie. School Principal  
Tender Type : Request for Proposals (RFP)  
Tender Coverage : Sole Agency [?]  
Categories : - 72000000 - Building and Facility Construction and Maintenance Services  
Regions: - Northland  
Exemption Reason : None  
Required Pre-qualifications : None  
Contact : Roger McClean  
029 281 4823  
Alternate Physical Delivery Address :  
Alternate Physical Fax Number :

### Overview

Dargaville High School seeks the services of a Main Contractor for the Design, Supply and Installation of a New Permanent Canopy Structure for the Student Hub.

The new canopy structure is to be approx. 20m x 10m (400m<sup>2</sup>) and to have approximately 4.0m knee height (lowest part of the structural frame), be constructed of structural steel framework and an MoE compliant (trafficable) tensile PVC membrane system.

The new canopy structure is to include spoutings, downpipes and connection to the schools existing stormwater drainage network. The ground surface under the canopy is to be finished with gravel over a well compacted base, with reinforced concrete edge/perimeter.

The supplier must provide a canopy design that is fit for all year-round use, suited to the School's wind zone, corrosion / exposure zone, and the geotechnical requirements of the site.

The supplier must provide a 25-year warranty for the new canopy tensile membrane system.

The structural steel framework is to be galvanised and the supplier must provide a Fabrication warranty of 25 years (material) & 5 years (workmanship), and a Corrosion Protection warranty of 10 years (material) & 5 years (workmanship). The structural steel framework must also be designed in such a way to prevent birds from creating nests or perching.

All new foundations and hold-down fixings will be required to be concealed / hidden under the court surface to prevent tripping hazards.

The supplier must provide & maintain a project programme including design, consenting, and construction of the new canopy.

The supplier must provide a track record of completing at least 10x canopy projects similar to that proposed in this procurement.
