Regions: - Otago  
Required Pre-qualifications : None  
Contact : Hamish Black  
034774000  
Alternate Physical Delivery Address :  
Alternate Physical Fax Number :

### Overview

Since 2019 the Dunedin City Council (DCC) has provided bespoke painted bike and scooter tracks on school grounds around Dunedin. These tracks have allowed schools with limited space to provide students with an opportunity to practice safe scooting and biking skills, while mimicking a road environment. The DCC has also provided support for schools to undertake a Bikes in Schools project, including the initial skills track design and project management.

Due to the success and demand of the Bikes in Schools projects and the painted school tracks, DCC is now seeking to implement a contract with a supplier to design and manage the implementation of both types of tracks (painted and skills) for the next 2 years (from 2022/23- 2023/24 financial years).

We are seeking expressions of interest from potential suppliers located in Dunedin to provide custom track designs and to support and manage the implementation of the tracks on school grounds. We are seeking a credible supplier who has the capability, expertise, experience, and resources to design and manage the implementation of bike tracks for Dunedin schools.
