## Overview

A recent learning support modifications report has identified the need for a new compliant universal bathroom facility.

A solution that will see the bathroom created in the middle of the school results in a major reconfiguration of the existing student toilets.

The creation of a modern, fully serviced accessible bathroom results in the provision of new self contained unisex cubicles in an improved layout.

The scheme will be traditionally executed with a full design team employed by the Gladstone School Board of Trustees producing full construction documentation.
