Overview

This Request for Proposal (RFP) is an invitation to suitably qualified Respondents to submit a Proposal for two cultural competency training programme/s or modules for the mental health and addiction workforce in relation to:

- Diverse Asian communities
- Refugee communities

We are ideally seeking services from the best available provider for each of the two types of competency training. Respondents can propose to deliver training to one or both communities listed above. Ideally our preference is to procure services where some materials already exist, and/or delivery processes exist but could be adapted. However we are open to proposals where all materials will need to be developed providing the respondent can demonstrate their ability to develop these materials within a maximum of 12 weeks from contract signing and which can be done within the specified budget.

This is a single step procurement process.
