Overview

The University are looking for an experienced Contractor that has a track record delivering similar projects, early involvement/engagement and who has well established subcontractor relationships to deliver the work.

The kind of skills and experience we are seeking are:

1. relevant experience working in an institutional environment.
2. collaborate with the Principals Procurement Officer using an 'open book' model to value works and to procure/accept subcontract work packages.
3. collaborate with the design and project management team in delivering the works.
4. deliver small packages of work as the design for each work package is completed.
5. be flexible in working with the project team and other contractors.
6. be adaptable to changing site conditions and the management of health and safety when working alongside other contractors.
7. provide construction methodologies.
8. provide input on programmes.
9. be proactive identifying and providing solutions to design clashes.
