Alternate Physical Fax Number :	

### Overview

The Dunedin City Council (DCC) is redeveloping Moana Pool to revitalise the facility for the next 50 years to be a premier destination for aquatics, leisure and competition swimming in the Region.

A key part of the renovation and revitalisation works are the replacement of the current Hydroslices.

The DCC currently operate 2 slides at Moana Pool.

The slides, associated splash pool, access tower and plant room are planned to be demolished and a new slide facility constructed adjacent to the current leisure pool.

The DCC wants to partner with a company that can demonstrate the capability and experience to design and build state of the art Hydroslices (2 or preferably more) for the next generation.

We also want to create an accessible facility that allows all of our community to experience our destination facility.

The DCC wants a Design and Build Partner for cool Hydroslices that thrill our community and also work with our other key partners on the project.
