### Overview

Wellington Water Limited (WWL) manage the water and wastewater delivery within the Wellington region on behalf of Wellington (WCC), Lower Hutt (HCC), Upper Hutt (UHCC) and Porirua (PCC) City Councils and South Wairarapa District Council (SWDC).

On average we supply over 160 million litres (ML) of water per day to Upper Hutt, Lower Hutt, Porirua and Wellington, and 4.1 million litres of water per day to Greytown, Featherston, Martinborough and Pirinoa. Wellington Water Limited also directly manages the treatment of wastewater for South Wairarapa District Councils, with a major operations contract in place with Viola for the major wastewater plants elsewhere.

Wellington Water Limited is looking for a consistent quality approach to the management and delivery of facility services which include cleaning – both internal and external, grounds maintenance and pest control.

There are a range of sites where services are required -  
Water Treatment Plants throughout the Wellington Region  
Waste Water Treatment Plants in South Wairarapa District  
Wellington Water Head Office located in Petone (internal cleaning only)

Reliability and proven track record of service delivery are important to us. Wellington Water Limited will be looking for contractors who are willing to work with us to adapt to changes in the scope of requirements over the next three years.

Further information and timelines will be supplied in the Registration of Interest (ROI) due to be issued on 27/05/22

Note: No information from potential respondents is required from this advance notice.
