Overview

• Nature of the Works: The project will require a new roof pitch to be constructed over a portion of the current roof area to direct the water from the roof, to the outside of the Block area. The scope of work will also deal with the removal on high level windows and address fire egress compliance requirements along with the removal of cladding that has any asbestos content. The scope will also upgrade the internal services, wall linings and floor covering. The scope will also require changing from a Type two fire system to a Type 4 including smoke and heat sensors.
