Overview

Replacement of a 10m long bridge and upgrading of approximately 135m of timber boardwalk that passes through a tidal mangrove wetland on the Paihia to Opuia Walkway, Bay of Islands.

The Contract Works include the following elements:

- Setting out and general site clearance, including trimming of vegetation.
- Site safety, path closure signage, and protective measurements.
- Erosion and sediment controls.
- Removal and disposal of approximately 135m of existing timber 1.2m wide boardwalk decking, joists and bearers, and the remaining bridge piles and approaches.
- Driving of four new timber bridge piles and installation of additional boardwalk timber piles where necessary.
- Supply and installation of new timber boardwalk bearers, joists and decking for 135m of boardwalk supported on existing piles.
- Supply and installation of a 10m long x 1.2m wide glulam timber bridge with barriers on both sides.
- Re-instate the existing 90mm diameter pumped sewage line onto the upgraded boardwalk and bridge.
- Any necessary temporary works.
- All other works indicated, described, or implied in the drawings or specifications.
