Overview

This procurement relates to selection of a capable, experienced contractor who can assist the agency with project management and facilitation of the collaborative design for the development of mental health and addiction system within agreed project timelines for the Wairarapa district.

We are looking for credible suppliers who have the capability, experience and capacity to deliver with a contract starting in Oct 2022 for around six months.

The key objectives are to identify a small number of actions that will help transform existing mental health and addiction services and build capability and capacity for better and faster change across the whole mental health and addiction service delivery system.

It is important to work in partnership with local iwi, improve health equity for Māori and improve wellbeing outcomes for service users in the Wairarapa.
