Regions:	- Otago
Exemption Reason :	None
Required Pre-qualifications :	None
Contact :	Hamish Black
Alternate Physical Delivery Address :	
Alternate Physical Fax Number :	

Overview

The Mosgiel Pool has been identified as a major project in the Dunedin City Council (DCC) Long Term Plan 2018-2028. Construction of the new pool is underway and due for completion by May 2023. Prior to the opening of the new pool, roading changes are required at the intersection with Gordon Road/State Highway 87. This tender opportunity is for upgrading the road to a signalised 4 leg intersection.

The project design has been formulated to ensure the best solution for a safe entry/exit to the pool facility.

The DCC is looking for a Contractor who has a comprehensive quality assurance process along with a robust construction management programme to guarantee a high standard of work is achieved.

Time is critical, construction must be completed before 31 March 2023 to ensure the intersection is fully functional well in advance of the pool completion date.

You will be working on a State Highway 87 that coincides with a busy site access point for the pool construction. We want a Contractor who has the experience and expertise to ensure traffic flow is well managed during the upgrade works.
