Overview

Palmerston North City Council (PNCC) is seeking an experienced mechanical and electrical contractor to undertake preventative and reactive maintenance as well as minor renewals and capital upgrades of its water and wastewater treatment plants, three waters network pump stations and solid waste sorting and handling equipment. PNCC is looking for a contractor who can take ownership of ensuring asset information held by the Council is accurate and can contribute to the development of an optimised and robust renewal and upgrade work programme.

This contract is being established to improve consistency and efficiency with respect to mechanical and electrical maintenance services. Furthermore, this contract is designed to improve understanding of the condition and performance of the assets as well improve the capture and recording of asset data, to enable better decision-making on the scope and timing of maintenance as well as renewal and upgrades to the assets involved.
