

## Expressions of Interest

### QUICK QUOTE REQUEST FOR A DATA SECURITY AUDITOR

The Isle of Man Financial Services Authority ('FSA') invites expressions of interest from suppliers to provide a Data Security Audit.

The FSA is looking to procure a third party to carry out a one-off data-security audit of its data security processes with focus on the interface with its Government shared service partner, namely the Isle of Man Government's Government Technology Services ('GTS').

GTS provides the IT infrastructure for the whole of the public sector on the Isle of Man. Information security standards that GTS apply are defined by the Government Office of Cyber Security and Information Assurance (OCSIA) and whilst the FSA can provide input into the standard setting it is not responsible for the standard definition. The application and technical infrastructure to meet the defined standards are provisioned as part of the service provided by GTS. As a result, the FSA has no direct involvement in the application of the processes or technical controls used to safeguard its data.

The objective of the external audit is for the FSA to be provided with a comprehensive review and analysis of the services provided by GTS and the wider control environment in place for the FSA's data and the data systems that house that data, highlighting any potential vulnerabilities, such as security weaknesses or high risk practices.
