User licences for Citrix Endpoint Management (formerly XenMobile) including Netscaler

Detailed description:

The department currently uses XenMobile(10.12.0.8) with a Netscaler(12.1 build 62.27) as its Enterprise Mobility Management (EMM) solution. This is an on-premise implementation with currently over 2000 mobile devices enroled. The Citrix applications currently deployed are Secure Mail, Secure Web, and QuickEdit. The Department requires user licences for Citrix Endpoint Management (formerly known as XenMobile) Enterprise Edition and a Citrix ADC (formerly Netscaler).
