

## **Drogheda Urban Animation - Myths and Legends Trail**

### Detailed description:

Louth County Council (LCC) has been successful in a funding application to Fáilte Ireland for an urban animation for The Project for Drogheda Co. Louth. The proposed lighting contract comprises of the animated lighting of 5 key legends of the River Boyne in lighting installations to landmark structures along the river in Drogheda. These lighting features will enliven and illustrate key myths and legends associated with the River Boyne as it runs through Drogheda's Heritage Quarter. Landmark buildings and structures in the historic landscape will be used as the setting for animated lighting installations of legends that will extend story telling from the historic streets and laneways in Drogheda to the Boyne Valley landscape, rich in mythology. The development of this trail will connect key historic buildings, tourist attractions and city zones. To that end LCC are now seeking a specialist lighting designer and contractor to prepare a lighting strategy and design to illuminate these landmark historic buildings and structures, and complete the delivery aspect of the works also. The successful tenderer will be expected to provide a design proposal that will be innovative and creative with state of the art architectural lighting solutions, whilst meeting the obligations of the EU 2030 energy efficiency targets. This strategy and design will be reviewed by the Contracting Authority prior to moving to the delivery stage of the project.

### Type of contract:

Services

### Response deadline (Irish time):

13/05/2022 16:00:00

### CPV codes:
