

St Conaire's National School Fire Safety Upgrade Works

Detailed description:

Detailed description: Fire Upgrade works to existing two-storey primary school building. Works will include minor demolitions and alterations, partial replacement of internal joinery and external aluminium units, roof walkway and external ramp. Minimum standards and qualification required: The minimum standards for participation in this competition (Suitability Assessment Criteria) are set out at Volume B – Department of Education and Skills Suitability Assessment Declaration. Tenderers must meet the relevant minimum standards in all respects. Prior to preparing and submitting a tender, potential tenderers should first check the criteria and minimum standards set out in the Suitability Assessment Declaration and satisfy themselves that their firms meet those standards. No liability will be accepted by the Contracting Authority for the cost of tendering. Average Turnover: Not less than 1.5 times the sum tendered for this project. Site Visit Appointment: Please contact Mr. Peter Walsh, School Principal at 061-364 694 to arrange an appointment to visit the site. All site visits will be conducted by appointment only.
