

## **Multi-Supplier Framework Agreement for the Development of Accredited Programmes in Green Skills for the FET Sector**

Detailed description:

With a focus on the development of green skills for employees and enterprises in a range of sectors in the Irish economy, SOLAS is now seeking to establish a framework of experts to design and develop a number of accredited training programmes in Green Skills/Sustainability. Subject areas to be covered will include circular economy, lean processes for sustainable practices, sustainable procurement/supply chain and a range of sustainable business processes. These programmes will be capable of delivery through blended, in-person and online modes.
