

Kennels to Accommodate Isolation of Animals

Detailed description:

People fleeing Ukraine are being facilitated to enter Ireland under special exceptional measures, provided for under Article 32 of EU Regulation 576/2013. with their pets, regardless of whether the pets have the appropriate certified health requirements. These measures only apply to accompanied pets from Ukraine. People travelling with pets are asked to email the point of entry they will be arriving to in advance. In certain cases, the Department of Agriculture, Food, and the Marine (DAFM) may wish to isolate some animals for a period of time following arrival into Ireland, and DAFM is now seeking expressions of interest from suitable persons who have the capacity to provide a boarding facility for these animals. In the vast majority of cases the animals will be cats and dogs. The boarding facility can only accommodate animals sent by DAFM for the period required Important Note: Tenderers must be aware that DAFM seeks exclusive use of all kennel spaces for all animal types when their services are engaged by DAFM i.e., when DAFM transfers an animal to your facility. Due to the urgency of this requirement, this tender competition will be run under an accelerated procedure.
