

WCCC 22/206 Metro Macadam Contract 2022

Detailed description:

The proposed project entails overlay surfacing works to selected local and regional roads within the Metropolitan District Engineering Area. Surfacing overlay will be circa 31,000 m2 Dense Bitumen Binder Course and SMA macadam. Planing, rising or ironworks and road lining will be required. Some road closures will be permitted, night work and site specific Traffic Management Plans will be required.
