

For the Provision of a Learning Platform For Science Foundation Ireland

Detailed description:

Science Foundation Ireland (SFI) invites tenders for the provision of a learning platform to support the Learning & OD strategy and enable a transition to a digital-first approach to learning delivery, curriculum development, skills building, and performance review. The objective of this competition is to appoint a suitable learning technology service provider to facilitate constantly available, broad-based learning and development that is of a high quality and is time and cost-efficient. SFI needs a learning platform with the capability to host digital learning resources, manage online performance review and development plan workflows, and to manage both instructor-led events and experiential, social learning.
