

Schools Energy Pathfinder 2023/24 - Leixlip Community School

Detailed description:

Tenders are invited from suitably qualified Architect or Building Services Engineer that are familiar with school design and have experience in delivering projects of a similar scale and complexity . Schools represent a significant opportunity for building energy retrofit – with the additional benefit of their high visibility in communities which has potential additional demonstrator and awareness value. The Pathfinder Partnership Programmes focus on supporting energy efficiency and decarbonisation building retrofit in the Primary & Post Primary Schools. These include energy retrofit improvements for the buildings, test approaches, build best practice and develop a scalable energy retrofit model which can be replicated across the public sector. The main objective of the Programme with this tender is to implement a range of deeper energy retrofit and renewable heating solutions in schools and to test approaches, build best practice and capacity to develop a replicable scalable energy retrofit model for the building stock to help deliver on the sectors energy and decarbonisation targets.

Type of contract:

Services

Response deadline (Irish time):

22/08/2022 17:00:00

CPV codes:

71000000-8 Architectural, construction, engineering and inspection services
71200000-0 Architectural and related services
71220000-6 Architectural design services
71222000-0 Architectural services for outdoor areas
71240000-2 Architectural, engineering and planning services
71250000-5 Architectural, engineering and surveying services
71300000-1 Engineering services
71500000-3 Construction-related services
