

Monitoring 28 Electricity Meters and 4 Gas Meters

Buyer: Inland Fisheries Ireland

Description:

Inland Fisheries Ireland is seeking suppliers to install a turnkey energy management software solution on 28 Electricity points and 4 Natural Gas Meters. The solution will provide a backend database with a URL and password for 9 users. IFI will be able to view our progress towards the 7% reduction in Green House Gas Emissions annually to 2030 and will be displayed weekly\monthly on a graph based on the requirements for the system. For information on the Governments Climate Actions plan and targets please see attached document CAP21 to this tender.
