

IRM20/7513-The Repair and Provision of Output Specifications for Small Engines and Ancillaries.

Buyer: BABCOCK INTERNATIONAL GROUP PLC

Description:

"ITT Documentation is being published for the purpose of transparency only - the Down selection phase has been completed and successful applicants have been invited to Tender. Babcock Land Defence Limited acting as agent to the UK Ministry of Defence ("the Authority") has under consideration a three (3) year contract which will include three (3) one (1) year extension options; making a maximum potential contract duration of six (6) years for the The Repair of Small Engines and Ancillaries, and Provision of Associated Output Specifications. Babcock Land Defence Ltd reserve the right to add further items of a similar nature to the contract post award.

Babcock Land Defence Limited, acting as agent for the UK Ministry of Defence, intends to place a three (3) year contract which will include three (3) one (1) year extension options; making a maximum potential contract duration of six (6) years for The Repair of Small Engines and Ancillaries, and Provision of Associated Output Specifications.

The MoD are driving to improve the quality of equipment and platform data they hold. For this contract, we are asking industry to develop output specification for the NSN's contained within this requirement.

An output specification is a qualitative specification, detailing the NSN's high-level functional and physical performance characteristics, test and inspection criteria and permissible tolerances following in-depth repair activities.

An Output Specification is not to be construed as a repair specification; which would detail how the Contractor Deliverable is to be repaired.
