

Supersonic Wind Tunnel

Buyer: The University of Salford

Description:

The University is seeking to procure a Supersonic Wind Tunnel. The study of high-speed flows forms a major part of the Undergraduate Aeronautical and Aircraft Engineering Programmes. Each year, more than 150 students across several years of study successfully achieve learning outcomes by conducting laboratory experiments using the Supersonic Wind Tunnel. The current Supersonic Wind Tunnel is approaching the end of its life and a new one must be procured.

Country:

United Kingdom
