

## Funding opportunity: Understanding changes in quality of UK freshwaters

Buyer: Natural Environment Research Council (NERC)

---

### Description:

Apply for funding to investigate the changes in quality of UK freshwaters.

You must be based at a UK research organisation eligible for NERC funding.

Research will include:

investigating how pollutants interact within rivers and supporting ecosystems

investigating how the infiltration and movement of pollutants will be amplified or mitigated by a changing hydrological cycle

supporting the improvement and development of tools to monitor and measure pollution.

You must submit a 'notification of intent' before applying (see 'how to apply').

The full economic cost of your project can be up to £2 million. NERC will fund 80% of the full economic cost.
